School Bus Safety!

Florida school buses carry precious cargo – our children. Motorists should always be alert and drive with caution around school buses and in school zones where children may be present.

Motorist and School Bus Safety Tips:

All drivers moving in either direction on a two-way street must stop for a school bus displaying a stop signal, and must remain stopped until the road is clear of children AND the school bus stop arm is withdrawn.

On a highway divided by a paved median, all drivers moving in either direction must stop for a school bus displaying a stop signal, and must remain stopped until the road is clear of children AND the school bus stop arm is withdrawn.

On a highway divided by a raised barrier or an unpaved median at least 5 feet wide, drivers moving in the opposite direction do not have to stop for the bus (painted lines or pavement markings are not considered barriers). However, these motorists should slow down and watch for students loading or unloading from the bus.

Be alert and watch for children especially near schools, bus stops, school buses and in school parking lots.

Pay extra attention to lower speed limits in school zones.

Watch for and obey signals from school crossing guards.

Only drive or park in authorized areas to drop off or pick up children at school.

Each illegal pass-by could result in a tragic injury or fatality of a student. The inconvenience of an extra few seconds spent waiting for a stopped school bus is insignificant compared to the loss of a child's life.

Drivers who improperly pass a stopped school bus commit a moving violation subject to citation and will be required to complete a basic Driver Improvement Course upon conviction.

Safety at the Bus Stop:

Arrive at the bus stop about five minutes before the bus is scheduled to arrive.

Never sit on the roadway or the curb while waiting for your bus; wait in a safe place away from the road.

Never speak to strangers at the bus stop or get into a car with a stranger. Always tell your parents, the bus driver and a teacher at school if a stranger tries to talk to you or pick you up.

When the bus stops, wait for the driver's signal that it is safe to cross the road or board the bus.

If crossing the street, look left, right and left again. Make eye contact and make sure your bus driver can see you as you cross the street.

Never walk behind the school bus and stay away from the bus wheels at all times.

Safety on the Bus:

Know your bus driver's name and bus number.

Remain seated at all times and keep the aisle clear.

Don't put your head, hands or arms out the window.

Stop talking and remain silent when the bus comes to a railroad crossing so the driver can hear if a train is approaching.

Avoid any loud or disruptive behavior that could distract the bus driver from safely operating the bus.

SCHOOL BUS

School bus traffic violations can be both dangerous and costly. Remember your bus safety rules, be cautious and drive safely. Let's have a great school year at Heritage Landing!

School bus transportation is safe.
In fact, buses are safer than cars! Even so, last year, approximately 26 students were killed and another 9,000 were injured in incidents involving school buses. More often than not, these deaths and injuries didn't occur in a crash, but as the pupils were entering and exiting the bus.

SCHOOL BUS SAFETY TIPS

Stay away from the bus until it comes to a **complete stop** and the driver signals you to enter.

Stay away from the bus until the driver gives his/her signal that it's ok to approach.

Keep a safe distance between you and the bus. Also, remember that the bus driver can see you best when you are back away from the bus.

Have a safe place to wait for your bus, **away from traffic and the street.**

Be aware of the street traffic around you. Drivers are required to follow certain rules of the road concerning school buses, however, not all do.

When being dropped off, exit the bus and **walk ten giant steps away** from the bus.

Use the handrail to enter and exit the bus.

Protect yourself and watch out!

**St Johns County students will
return to class on
Friday, August 10th.**

**Please join us in wishing them a
safe and productive year in class.**

**Please be watchful for sleepy
kiddos crossing the street
(sometimes running late) in the
morning and for increased traffic.**

Contact Sebastian Lara at (904) 633-5276 or laras@nfl.jaguars.com if you have any questions!

Pool Rules for Flotation Devices & Pool Toys

The Amenity Center Staff (Lifeguards, Amenity Manager, Facility Attendants) reserve the right to discontinue usage of ANY play equipment, especially during times of peak or scheduled activity at the Swimming Pool, or if the equipment provides a safety concern or nuisance.

Although not an exhaustive list, the following describes what is and is not OK:

OK:

**Infant Water Floats with Seats || Water Wings
Pool Noodles || Soft Foam
Water Balls || Dive Sticks**

NOT OK:

**Large Rafts and Floats
Hard Toys || Battery Operated Toys
Hard Balls || Frisbees**

WHY?

Floats limit the visibility of the bottom of the pool and some toys pose a risk or nuisance to other swimmers.

Following Florida Department of Health Rule #64E-9.008 for public pools without permitted outdoor lighting, the pools and pool areas will close one half-hour before sunset and may open one half-hour after sunrise. Pool closing times will be posted at the amenity center office.

**WHEN THUNDER
ROARS, STAY
INDOORS.**

Florida is the lightning capital of the United States and it is ranked as the number one state for deaths due to lightning.

- ◊ Did you know that lightning kills more people in the U.S. than hurricanes and tornadoes combined?
- ◊ Lightning travels at the speed of light, while thunder travels at the speed of sound.
- ◊ A single bolt of lightning can discharge about 100 million volts of electricity and can travel as far as 10 miles from a cloud. It does not need to be dark directly overhead.
- ◊ If you can hear thunder, you are within striking distance!
- ◊ It has been known to travel through clear air and strike 10 miles from the storm like a bolt out of the blue!
- ◊ Lightning is actually 5 times hotter than the sun's surface!

With all of this knowledge and critical information we'd like to remind you of Heritage Landing's thunderstorm policy. If we hear thunder or see lightning, we will close the facility for 30 minutes. Every time thunder is heard or lightning is seen, the clock is restarted to 30 minutes. This is strictly enforced for your safety!

No life is worth the risk!

Chocolate Teddy Bear Cookies

Ingredients

- 2/3 cup butter
- 1 cup white sugar
- 2 teaspoons vanilla extract
- 2 eggs
- 2 1/2 cups all-purpose flour
- 1/2 cup unsweetened cocoa powder
- 1/2 teaspoon baking soda
- 1/4 teaspoon salt

Directions

1. Cream together the butter or margarine, sugar and vanilla. Add the eggs. In a separate bowl, mix dry ingredients. Gradually add to the creamed mixture and blend. Chill until firm.
2. Preheat oven to 350 degrees F (180 degrees C).
3. For each cookie: Roll: 1 ball for the body (1 inch), 1 ball for the head (3/4 inch), 4 small balls for arms/legs (1/2 inch), 2 smaller balls for ears, and 1 tiny ball for the nose. Arrange on ungreased cookie sheet. With tooth pick, draw eyes and mouth.
4. Bake 6 minutes or until set. Let cool 1 minute, then remove from cookie sheet.
5. Optional: Make a ribbon around their necks using licorice whips (after baking).
