## Pool Rules for Flotation Devices & Pool Toys

The Amenity Center Staff (Lifeguards, Amenity Manager, Facility Attendants) reserve the right to discontinue usage of ANY play equipment, especially during times of peak or scheduled activity at the Swimming Pool, or if the equipment provides a safety concern or nuisance.

Although not an exhaustive list, the following describes what is and is not OK:

**OK:**

**Infant Water Floats with Seats || Water Wings  
Pool Noodles || Soft Foam  
Water Balls || Dive Sticks**

**NOT OK:**

**Large Rafts and Floats  
Hard Toys || Battery Operated Toys  
Hard Balls || Frisbees**

**WHY?**

Floats limit the visibility of the bottom of the pool and some toys pose a risk or nuisance to other swimmers.

Following Florida Department of Health Rule #64E-9.008 for public pools without permitted outdoor lighting, the pools and pool areas will close one half-hour before sunset and may open one half-hour after sunrise. Pool closing times will be posted at the amenity center office.

**WHEN THUNDER  
ROARS, STAY  
INDOORS.**

**Florida is the lightning capital of the United States and it is ranked as the number one state for deaths due to lightning.**

- ◇ Did you know that lightning kills more people in the U.S. than hurricanes and tornadoes combined?
- ◇ Lightning travels at the speed of light, while thunder travels at the speed of sound.
- ◇ A single bolt of lightning can discharge about 100 million volts of electricity and can travel as far as 10 miles from a cloud. It does not need to be dark directly overhead.
- ◇ If you can hear thunder, you are within striking distance!
- ◇ It has been known to travel through clear air and strike 10 miles from the storm like a bolt out of the blue!
- ◇ Lightning is actually 5 times hotter than the sun's surface!

**With all of this knowledge and critical information we'd like to remind you of Heritage Landing's thunderstorm policy. If we hear thunder or see lightning, we will close the facility for 30 minutes. Every time thunder is heard or lightning is seen, the clock is restarted to 30 minutes. This is strictly enforced for your safety!**

**No life is worth the risk!**
